

Multilateral Pre-Inspection Form

Submit this completed form to EBMUD before scheduling an inspection for properties with multiple sewer laterals. As required in The Contractor Guidelines, for a parcel(s) with more than one lateral, the contractor must provide a map showing all laterals, private mains, and private manholes of the parcel or parcel group to EBMUD prior to scheduling an inspection. Scheduling an appointment using the www.eastbaypsl.com website or failure to provide a complete map prior to scheduling will subject the property owners to **enforcement action** and **appointment cancellation**.

- Complete this form. Submit via eastbaypsl@ebmud.com at least 2 weeks prior to desired appointment date.
- Allow 2 weeks for EBMUD staff review.
- Once you receive written approval from EBMUD staff, call (510) 287-1599 to schedule an inspection.
- This Pre-Inspection form is required for each inspection appointment, even for multiple inspections in the same parcel.
- **NO INSPECTION WILL BE PERFORMED UNLESS THIS FORM AND MAP ARE REVIEWED BY STAFF AND YOU RECEIVE APPROVAL TO SCHEDULE INSPECTION.**

Required Information

- Name of Community exceeding 1,000 ft of PSL (if applicable): _____
- Parcel (APN#) for appointment: _____
- Contact name (to contact about this document): _____
